

Consulting foresters are self-employed professional foresters. They provide a wide range of services to private landowners, industry, and governmental agencies. Their fees can vary based on a percentage, commission, job or hourly rate, retainer, or a combination thereof. When you hire a consulting forester, he or she is working for you, so tell him/her about your goals for your woodland. The following consultants have a two- or four-year forestry or natural resource-related degree.
